Eric,

We have processed the images collected today and are preparing to upload the images to the FTP site. I will send you an email once we start the upload.

Mark

All,

The aircraft has returned from the second sortie. We have aerial and oblique photos from this mission. I will send out a few in an email and then work to get these attached to the n-link and also jpeg2000 to support Flex. Give me a little time to get these worked up.

Also, based on the new data and the additional ammonia detections, I will update the report.

Mark
